SUMMARY

Frontend Developer with a strong foundation in UI/UX design, skilled in wireframing, prototyping, and user research. Bringing a design-first approach to frontend development using React, with growing expertise in full-stack technologies including Node.js. Experienced in data annotation tools like LabelBox and Label Studio. Passionate about building intuitive, responsive, and data-driven user interfaces that enhance user experience.

TECHNICAL SKILLS

Languages : C, JavaScript, Python
Frontend Development : HTML5, CSS3, React, React Native
Backend Development : Node.js, Express.js
Databases : MongoDB
UI/UX Design Tools : Figma
Data Annotation : LabelBox, Label Studio

EXPERIENCE

UI/UX Designer / Frontend Developer — Oct 2024 – Present
vpatrol.ai — On Site
As a UI/UX Designer, I specialize in creating optimized, modern layouts that enhance web performance and ensure design consistency across client applications with full cross-device compatibility. My user-centered approach focuses on delivering intuitive and visually appealing interfaces that drive engagement and satisfaction. I collaborate closely with development teams to implement design best practices, ensuring seamless integration that aligns with client requirements. Additionally, I have hands-on experience in data annotation using LabelBox and Label Studio, where I contribute to AI/ML projects through precise dataset labeling and classification.

UI/UX Designer Intern — Sept 2024 – Oct 2024
Clikin Tech — Remote
As a UI/UX Designer at Clikin Tech, my primary focus was on conducting in-depth research to identify user pain points and develop effective solutions. I collaborated with teams to understand user needs and translated insights into intuitive, user-centered designs. My work involved solving complex design challenges, iterating on concepts, and optimizing user experiences through thoughtful design strategies, ensuring that the solutions were both practical and aligned with user expectations.

PROJECTS

Doctor App — **Tools:** Figma
Designed a comprehensive doctor appointment and health coordination app prototype using Figma, tailored for doctors, patients, and caretakers. Focused on creating an intuitive user flow, ensuring seamless communication and coordination between all parties. The prototype includes features for appointment scheduling, health tracking, and real-time updates, enhancing the overall user experience. Prioritized accessibility and ease of use, delivering a design that supports efficient health management and fosters better patient care..

Ecommerce Website — **Tool : Figma**
Designed wireframes for an e-commerce website using Figma, focusing on creating a user-friendly and visually appealing shopping experience. The wireframes include key features such as product browsing, search functionality, cart management, and a smooth checkout process. Emphasized intuitive navigation and responsive design to ensure compatibility across all devices. Prioritized user engagement and ease of use, laying the groundwork for a seamless online shopping journey.

Riding & Parcel App — **Technologies & Tool :** Figma, React-Native, Node.js, MongoDB
Developed a prototype for QR Cabs, a ride-hailing app, designed to offer a hassle-free transportation experience. The app features a user-friendly interface for booking rides, tracking driver locations, and making secure payments. Integrated QR code technology for quick ride confirmations and enhanced safety.

EDUCATION

M.Sc. in Computer Science — **June 2022 – May 2024**
Pondicherry University — CGPA: 6.2

B.Sc. in Information Technology — **Aug 2018 – Apr 2022**
Magadh University (MU), Bodh Gaya — Percentage: 66.6%

I.Sc. (12th) in Mathematics — **June 2016 – July 2018**
S.N College Aurangabad (BSEB Patna) — Percentage: 59.2%

SSC (10th) — **Mar 2015 – June 2016**
High School Bhadwa (BSEB Patna) — Percentage: 70.2%

ACHIEVEMENTS & CERTIFICATIONS

Hands-on Training on "IoT and its Applica- tions" at Pondicherry University. — **Certified by lobiT Solutions-Bengaluru**

Hands on Training on MOBILE DEBUG- GING TROUBLESHOOTING. — **Certified by New Technology Mobile Service and Training Institute,Coimbatore**

Certified in Python programming with a focus on data structures, algorithms, and practical problem-solving. — **NPTEL | IIT Madras**
